

Overview of detailed parameters

Conductive Polymer Capacitor

Series: **PG** NEW

High Temperature 125°C Type

Mounting:
SMD Package

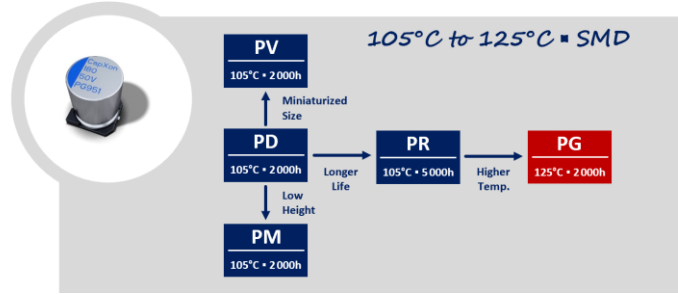

Voltage Range:
6.3V ~ 50V

Capacitance Range:
10uF ~ 1500uF

Endurance:
2000h @ 125°C

Features:

- Especially for high temperature environments
- Large permissible ripple current
- No dry-out effect guarantees extremely long life

Applications:

	Data Centers
	Industrial
	Audio
	White Goods
	Power Supply

Compliance :

- RoHS & REACH
- Halogen Free
- JIS-C-5101-25

Production Status :

- Mass Production
- Samples Available
