

Hybrid Conductive Polymer SMD

Overview of detailed parameters

Hybrid Conductive Polymer Capacitor

Series: **YC** NEW

Economy, Long Life at 125°C Type

Mounting:
SMD Package

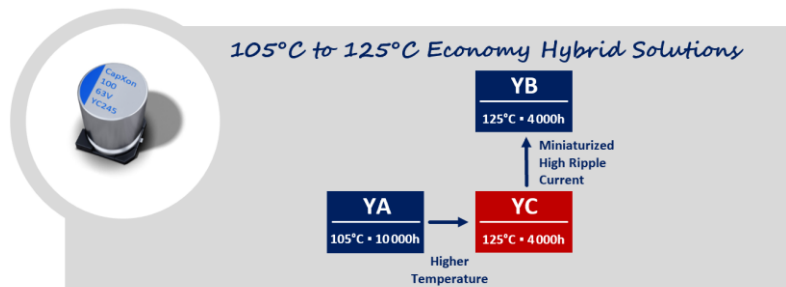

Voltage Range:
16V ~ 100V

Capacitance Range:
10uF ~ 1500uF

Endurance:
4000h @ 125°C

Features:

- Low ESR and high ripple current
- Economy series for cost effective applications
- Lower leakage current than comparable solid polymer capacitors

Applications:

	Automotive
	Audio
	Battery Chargers
	Controls & Drives
	Power Supply

Compliance :

- RoHS & REACH
- Halogen Free
- JIS-C-5101-25

ECONOMY

TEMPERATURE

Production Status :

- Mass Production
- Samples Available
